

Concepts to understand:

1. *The Nervous System controls (communicates to) every single organ and tissue in the body.*
2. *The primary control unit of the nervous system is the brain.*
3. *The single most likely area for there to be a disturbance in the body is between the head and the first bone in the spine.*
4. *Loss and/or reduction of this communication pathway equates to loss/reduction of the life force (nerve transmission) to your body.*

Let us help you have the best life possible and keep your nervous system free from the interference that is reducing your full potential. Make this positive choice for your entire family.

*Hope deferred makes
the heart sick, but a
longing fulfilled is the
Tree of Life.*

\$75,000 offered For MD to Publicly Drink Vaccine Additives

Jock Doubleday, director of the California non-profit corporation Natural Woman, Natural Man, Inc., has offered \$75,000 to the first medical doctor or pharmaceutical company CEO who publicly drinks a mixture of standard vaccine additives.

The additives would be the same as those contained in the vaccines recommended for a 6-year-old according to U.S. Centers for Disease Control and Prevention (CDC) guidelines, and the dose would be body-weight calibrated. It would include, but not be limited to:

- Thimerosal (a mercury derivative)
 - Ethylene glycol (antifreeze)
 - Phenol (a disinfectant dye)
 - Aluminum
 - Benzethonium chloride (a disinfectant)
- Formaldehyde (a preservative and disinfectant)

On August 1, 2007, if no one has taken the challenge, the offer will be increased to \$90,000 and will increase at a rate of \$5,000 per month until someone accepts.

[Vaccination Liberation Press Release](#)
[Jock Doubleday's Vaccination Liberation](#)

Dr. Mercola's Comments:

Not surprisingly, this offer has [been on the table since 2001](#), but no one has been willing to take that [toxic chemical cocktail](#) -- except for the children who innocently go in for their [routine vaccinations](#). With the average amount of loans for medical students now well in excess of \$100,000 you might have thought some doctor would have tried to cash in on this so they could accelerate the payment of their student loans.

In addition to the vaccine additives listed above, others can include ammonium sulfate, amphotericin B, pig blood, rabbit brain, monkey kidney, betapropiolactone, tri(n)butylphosphate, and a laundry list of other chemicals. The mercury-based preservative [thimerosal](#), in particular, is dangerous. Mercury is a poison and potent neurotoxin. Injecting it into a child, whose nervous system is rapidly developing, can have terrible consequences.

From the evidence I have reviewed and my own clinical experience it is clear that mercury is one of the reasons autism skyrocketed in the last 10 years. Autism has started to decrease now that [some the vaccines have eliminated mercury](#), but be wary; many vaccines still do contain thimerosal, no matter what you may have heard. And even those vaccines without thimerosal still contain an incredible number of dangerous chemicals. When the mercury is removed, it is typically replaced with another toxic additive that is frequently [just as health-harming](#). The [aluminum hydroxide](#) used in many vaccines has been linked to symptoms associated with Parkinson's, ALS, and Alzheimer's. Phenols, methanol, isopropyl, and 2-phenoxyethanol are other ingredients which are corrosive or toxic.

The bottom line is, if you are a parent and are considering vaccinating your child, please read up on the potentially devastating [side effects of vaccines](#) before doing so. It could mean the difference between life and death. Avoid the fear mongering and take some time to read ALL sides of the issue, not just the propaganda conventional pediatrician will present to you. Most educated parents that I know that have done a careful analysis of the data invariably chose not to vaccinate their children.

Please join us in welcoming all of our new patients. Thank you for choosing Tree of Life Chiropractic for your chiropractic needs!

Many thanks to all of our practice members that have referred their friends and family into our practice. It is the commitment from you to promote health that will benefit the world one person at a time.

*Thank you,
Drs. Heath & Cindy*

Mission:

To be a premier community-based upper cervical healthcare facility giving the love and compassion our members need while serving as an example influencing and assisting the profession as God has directed us to do.

Power of Chiropractic

“Listen to What Patients are Saying”

Will You Help?

After reading this issue of our newsletter will you pass it along to someone else that you feel it would be of interest to.

By doing this you are helping in many ways:

- Sharing ways for others to improve their lives.
- Introducing others to an alternative noninvasive approach to healthcare.
- Increasing the worlds energy expression by having more people be interference-free.
- Utilizing this information for the goodness of humanity before it ends up in the recycle bin.

And by doing this we THANK YOU!

Closing Thoughts...*Life Exercises*

Every Other Tuesday at 7pm

TLC 'Well'Shop. This is an informational session designed to help you understand the benefits of NUCCA care. This is open to all patients and non-patients alike. Call to reserve your seat.

Saturday, Aug. 11th at 2pm

Free Ice Cream Social to share with our practice family and to introduce our office to others. Story telling will entertain the children.
